360 SPORTSCAPES

YOU DREAM IT. WE BUILD IT.

OUR STORY

- 360 SportScapes is the total solution for all your synthetic landscape and sport surfacing needs. Our vast array of products include artificial lawn, backyard basketball courts, outdoor putting green, residential tennis courts, athletic fields, pet turf, backyard ice rinks, residential batting cages, play areas and more.
- 360 provides commercial, residential, and municipal synthetic grass and sportscapes throughout New England and Southwest Florida. We offer the most durable and environmentally-friendly products on the market. Our highly-advanced products can be installed anywhere from backyards and businesses to schools and country clubs and more! Above all, we offer an inclusive full turnkey service including design, construction, and installation.

WHY 360?

INTEGRITY OF OUR WORK: Our highly skilled team will design, engineer, manage and service each project to your custom specifications. 360 is with you throughout the completion of your project and will remain with you for the lifetime of your investment.

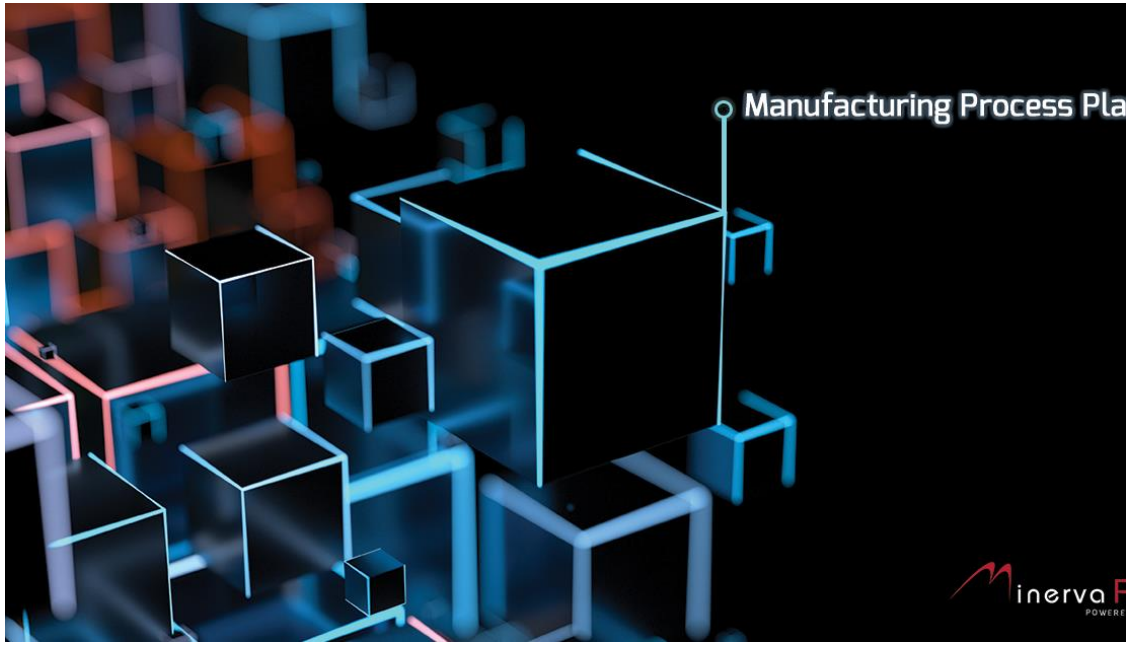
ENVIRONMENTAL CONSIDERATIONS: Our company considers the environment in all of its actions. we also demand the same of our manufacturers. our systems are therefore both aesthetically pleasing and meet the very highest in environmental standards.

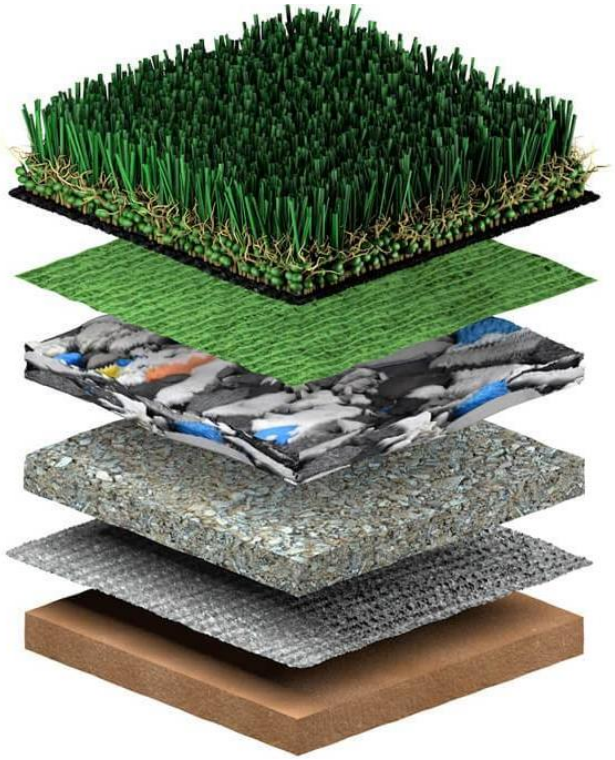
FINANCIAL CONSCIOUSNESS: Our clients acquire huge long-term savings from this type of venture and we pledge to help maximize their investment through our services such as offering our ideas and suggestions on how to fund and finance your project so that you can maximize your investment.

SUPERIOR PRODUCT QUALITY: We believe in superior quality, so we teamed up with the top manufacturers in each specific area of sport surfacing and construction. our manufacturers provide the best products and warranties in the industry while our partners include the leader in synthetic grass manufacturing with offices on five continents.

ENVIRONMENTAL STEWARDSHIP

- We have stepped forward to take a leadership role and practice environmental stewardship. We achieve this by educating customers on how altering the sports surface and practices associated with maintenance can have a dramatic effect on not only their individual facilities but the environment at large. Our managers work with you to design custom surface programs that maintain a healthy environment for all inhabitants of your facilities while providing a long-term cost-effective solution.





TECHNOLOGY & MANUFACTURING PROCESS – SYNTHETIC TURF

- Our manufacturers are highly recognized across the world as solution-based manufacturers of synthetic turf. They listen to the needs of their customers and meet the precise specifications and performance that 360 SportScapes require. They utilize the same technologies as carpet tufting, adapting conventional machinery to manufacture longer tuft lengths required in many products. Our manufacturers have collective knowledge across their manufacturing plants, which is one of the reasons their coveted processes are leading the way in producing high-quality synthetic turf.

TECHNOLOGY & MANUFACTURING – SPORTS COURTS

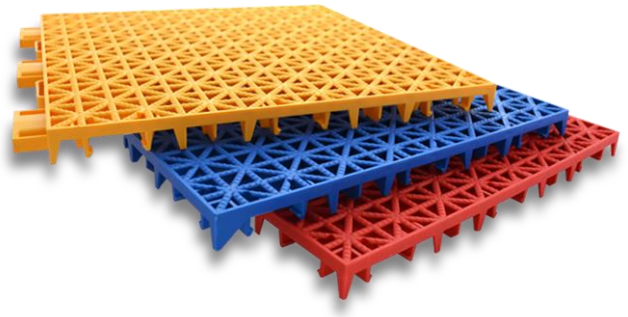
- Our manufacturers provide an innovative athletic court and flooring system which incorporates the most recent advancements in technology to ensure a comfortable, safe surface ideal for indoor and outdoor sports courts. The 3/4″ thick sports court tile is shock absorbing which reduces playing fatigue and provides better ball rebound and exceptional game performance. The grip surface design delivers high-quality performance in-game play, allowing greater safety when jumping and turning in close proximity. The absorbing nature of the tile can reduce the impact of falls that might otherwise produce significant injury.

CUSTOMER WARRANTY – SYNTHETIC TURF

- Our synthetic turf has a minimum 8-year warranty against manufacturing defects and fading.
- Maintenance of synthetic turf involves brushing/leveling the infill, rinsing the turf with water and occasionally washing with a half vinegar and water mix.

CUSTOMER WARRANTY – ATHLETIC COURT TILES

- The sports court tile we provide have at least a 15-year limited warranty and a 25-30 year life expectancy. Maintenance is as simple through clearing leaves and an occasional power washing to remove dust and dirt. Unlike traditional court surfaces, the tiles are 100% antimicrobial and prevent mold build-up.



PRODUCTS – ATHLETIC COURTS

- 360 SportScapes is a full service outdoor and indoor sports construction company that offers a full turnkey service for sports courts. From design, construction, and installation, 360’s innovative sport court systems are perfect for a variety of sports and a vast array of applications. Our sports surfacing line is the most advanced, durable, safe and environmentally-friendly product on the market.

ATHLETIC COURTS BENEFITS

- Extra UV Protection is molded into each tile to ensure against color fade (10 times more than the average tile).
- Multiple injection points and patented locking system uses six (6) locking points, keeping tiles flat and secure for uniform ball bounce
- Low maintenance only requires blowing off leaves & hosing off dirt
- Antimicrobial tiles protect against mold build up unlike conventional court surfaces
- Heat-reflective design 50 percent cooler than asphalt and concrete
- MultiDirectional Flex Technology allows slight side-to-side movement providing forgiveness on the joints and back
- 15-year warranty and a 25-30 year life expectancy
- Fast Drain Open Grid Surface allows water to drain quickly so you can start playing right after the rain stops

PRODUCTS – ARTIFICIAL TURF SPORTS FIELDS INSTALLATION

- 360's sports line of synthetic grass has been specifically engineered to be more durable and can withstand much more than natural grass. Sports and athletic fields are customized and made to order based on the product specifications each field requires (these specifications include yarn type, stitch rate, backing, lines, and specialized logos). Each sport has its own unique specifications which determine optimal playing surfaces.

- We provide our clients a solid alternative to natural grass in a variety of ways – whether your sport is football, baseball, softball, soccer, field hockey, tennis, or lacrosse, 360 Sports Systems will provide you with the perfect surface that will last for years to come.

ARTIFICIAL SPORTS FIELDS BENEFITS

- 45 times more usage then natural grass
- Lightning fast drainage (five times faster than natural grass) which means no more rainouts or canceled games due to flooded fields.
- Improves aesthetics and creates a positive community focal point
- Minimizes maintenance costs (eliminates chemical fertilizers and lowers water bills)
- Eliminates costs associated with keeping uniforms clean from grass and dirt stains

PRODUCTS – PUTTING GREENS

- 360 Golf has a complete array of professional artificial grass products – a line that offers a true practice environment for anyone, from your weekend warrior to your professional golfer. Our putting greens not only duplicate the look and feel of real grass, but compression in the turf also gives the golfer the ability to produce an accurate trajectory and distance control.
- 360 Golf is the real deal and every golfer who uses our putting greens is thrilled when they feel the difference we provide. Many companies try to duplicate our putting greens, but if they aren't from 360, they aren't the best!
- Putting Greens are architectural focal points and entertain family, friends and clients. They also create an environment to help promote an active lifestyle and get kids away from their computers and video games. So whether you're spending time with the family or practicing that stroke, 360 putting greens are the perfect addition to your home or office!

PUTTING GREEN BENEFITS

- 10-year life expectancy with proper care
- Reliable in all climates
- Minimal maintenance required
- ADA compliant
- Allows you to practice at home
- Improves your short game
- Requires no water, chemicals or fertilizer

PRODUCTS – ICE RINKS

- 360 Sports are the #1 residential ice rink builder in the New England area. We specialize in customizing rinks to fit your yard and budget and our clients are amazed by how easy and affordable it is to transform their dormant backyard into a winter wonderland. Each 360 rink is fully custom-designed for your unique outdoor space.

ICE RINK BENEFITS

- Custom board sizes to fit your needs, from 12 inches to 4 feet in height
- Easy brackets or ground stakes
- Three types of ice rink liners to choose from
- Board padding for protection and safety
- Ice resurfacing services
- Safe for use on all surfaces – our backyard ice rinks will not harm your grass
- Reusable for years to come
- Customizable surface sizes to fit your outdoor space
- Easy to store during the offseason
- Easy maintenance: shovel snow from the surface when needed

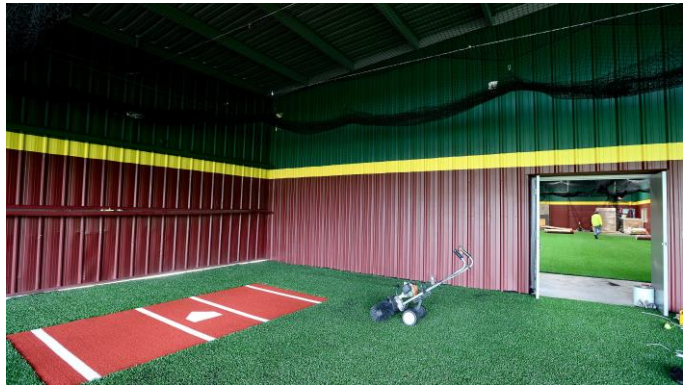
PRODUCTS – BATTING CAGES

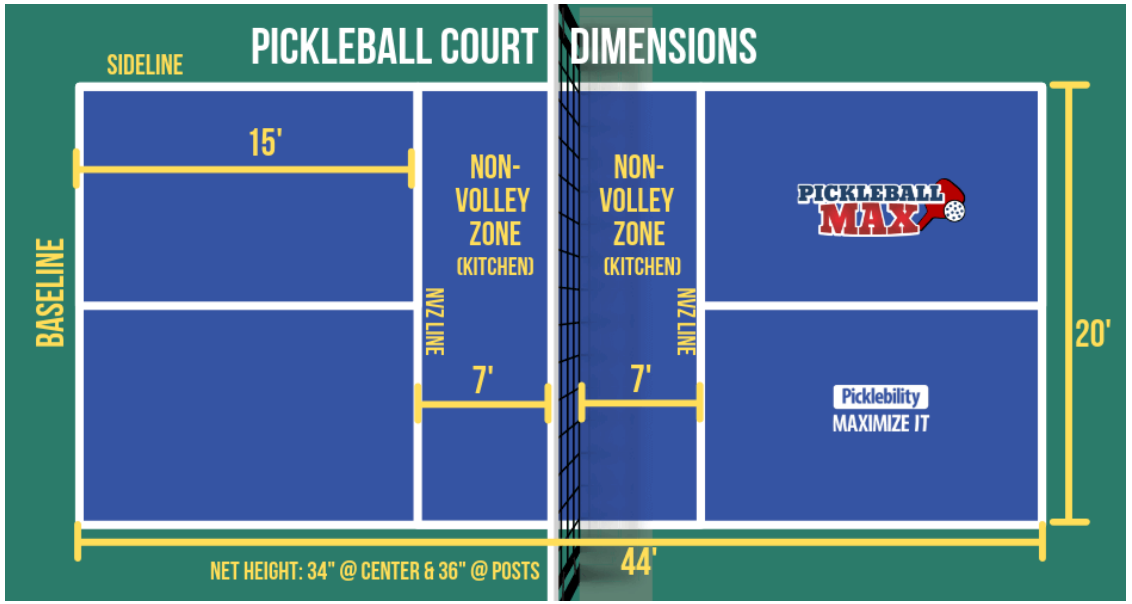
- 360 Sports is a full-service sports construction company that offers a full turnkey service. 360 Sports and Syngrass backyard batting cages are great for hitting and pitching practice, as well as giving you an area for a multitude of other activities, including hitting golf balls and running sprints. From design, construction, and installation, our innovative batting cage systems are perfect for a variety of applications from indoor baseball facilities and little league parks to backyard batting cages.

- Designed for ease of use and durability, 360 baseball batting cages are the most advanced, durable, and safest lines of residential batting cages on the market. We use only the highest quality cage netting and the strongest, sturdiest steel in our frames, offering you the best residential batting cages available on the market.

BATTING CAGES – SYNTHETIC GRASS

- In addition to our batting cages, 360 also carries a complete line of synthetic grass you can install within your batting cage, or to surface your entire indoor or outdoor baseball facility. 360 helps to create your vision and give it your own personal touch with customizable features such as size and color. We also offer all the standard baseball accessories a family or facility would need, including artificial grass batters mats, pitching machines, L screens, pitching mounds, bases, balls, and more.
- The 360 Sports Team will not only design, manage, and install each project to your custom specifications, but will also remain with you for the lifetime of your investment. We provide consultation with clients on how to raise funds for projects, as well as working within budget constraints that most public and private facilities deal with. We work diligently with you to ensure that all your needs are met and your goals are exceeded.





PRODUCTS – PICKLEBALL INSTALLATION

- Serving the Greater Boston & New England area, in addition to much of Florida, the team at 360 SportScapes are the Pickleball Court Installers you will want to call for your commercial or residential pickleball court. Our sports courts expert will be able to answer any of your questions regarding your new court. We also offer the option for a 15-year warranty on our pickleball courts. Learn more here by submitting a contact form.

PICKLEBALL COURT – MULTIPLE USES

- A pickleball court is the same size as a double's badminton court and measures 20×44 feet. The net height is 36 inches at the sidelines and 34 inches in the middle. The court is striped like a tennis court with right and left service courts and a seven-foot, non-volley zone in front of the net (referred to as the "kitchen"). Courts can be constructed specifically for pickleball, or they can be converted using existing tennis or badminton court!
- In addition to having lines and dimensions that lend to tennis and badminton courts, consider this new space in your backyard for more than just games. With the addition of a temporary tent, you now have an outdoor space great for parties and events.

PRODUCTS – BOCCE COURTS

- 360 SportScapes offers professional design and construction for commercial and residential Bocce ball courts. We specialize in synthetic grass and sand Bocce ball courts, which require virtually NO maintenance and last for years.

PRODUCTS – SHUFFLEBOARD COURTS

- 360 SportScapes shuffleboard courts are a low maintenance and cost-effective alternative to traditional concrete courts. Our shuffleboard court construction service can be used to place a shuffleboard court directly onto nearly any surface including patios, decks, and driveways. 360 SportScapes shuffleboard courts provide an optimal disc glide for competitive play and are a great aesthetic addition to your home or commercial property.

PRODUCTS – INDOOR SPORTS FACILITIES INSTALLATION

- We offer a vast line of products for indoor sports facilities which sets 360 apart from anyone else. We not only assist our clients in choosing the proper artificial turf for their project, but we also ensure it holds up to everything your clientele can throw at it.

- Our indoor sports turf is ultra-durable, safe, and looks and feels just like real grass. We understand that your time is valuable and that your business has budget constraints and we make sure that we deliver on time and exceed expectations. 360 has the unique ability to not only meet our clients' important demands during sports facilities design and installation, but we also stay with you for the life of your investment and make sure that you have everything that you need to service and maintain your product. We also install various other synthetic sports surface options such as rubber flooring, indoor courts, and more.
